

# Sherwood Gourmet Coffees

Small Cup \$1.69

Large Cup \$1.89

Beans \$12.99/lb.

## House Blend

Smooth; mild; the perfect way to start your morning.

## Rainforest Crunch

A delicate yet flavorful blend of tropical nuts including hazelnuts, macadamia nuts, and Brazil nuts, with a hint of caramel and vanilla.

## Caramel Nut

Toasted, buttery nuts and sweet, velvety caramel; how could you go wrong?

## Southern Pecan

Pure, southern charm; Perfection.

## French Vanilla

My personal favorite...the scent of this coffee is as much a part of the experience as the taste.

## Chocolate Raspberry

Not too sweet, just a hint of decadent chocolate and sweet raspberry to make you feel like you are sneaking a little dessert into your morning routine.

## French Roast

The darkest and most flavorful roast available. Like all fine French cuisine, you can taste the history and tradition in each cup of this bold brew.

\*Our coffee beans are freshly ground and brewed each morning, at the optimum temperature, to release every last bit of the rich flavor each variety has to offer.

## Amaretto

An absolutely stunning combination of almonds and apricots; reminiscent of the liqueur for which it was named.

## Tanzanian

Grown in the mountains of Tanzania, this coffee has excellent clarity and a whisper of citrus that makes it irresistible on warm summer mornings.

## Kona

Cultivated on the slopes of Mauna Loa and Hualalai on the big island of Hawaii, this coffee is the finest in the world. The volcanic soil, sunny mornings and rainy afternoons in the region combine to create the ultimate coffee-growing climate.

## Kenyan

A deep, almost wine-like acidity and rich flavor is what sets this bold coffee apart from all others. If you are looking for a way to start your morning off right, look no further!

## Guatemalan

A multi-dimensioned coffee including notes of chocolate, spices and citrus. Truly a delight for the senses.
